

- Start from the www.iscd.org Homepage. Please make sure you are already logged in to your account.
- Hover over the **Education** Menu and select the type of credit you are looking for, or “Full Catalog” to view all available courses.

- You will see the current catalog of online education offerings. It is separated out by Events, Live Offerings, and On Demand courses. The types of credit available for that course will be displayed on the colored ribbon next to the course title.

All ISCD Activities

- This will take you to a brief description of the course. Click “register” to proceed, or “Back to Course Listing” to go back to the full catalog.

Sarcopenia, Osteoporosis and Fractures: Perspectives on Musculoskeletal Aging of an Aging Musculoske

Sarcopenia, the age-related loss of muscle mass and function, is often considered in the context of osteoporosis and fractures. Despite this, progress in clinical recognition and treatment of sarcopenia has been limited. Sarcopenia today seems comparable to osteoporosis prior to 1990; a disease without widespread clinical diagnosis for which no pharmacologic therapy exists. Moreover, the pathogenesis of sarcopenia and osteoporosis are strikingly similar. Nonetheless, consideration of sarcopenia by osteoporosis clinicians can be done today; reasonable current, and potential future, clinical approaches will be considered.
